

Name: Saraan. J

Mobile number: +91-9894642343

Email Id: saraanj14638@gmail.com

Place: Coimbatore, Tamil Nadu

Objective:

Embedded Systems postgraduate specializing in ESP32-based real-time monitoring and edge-cloud integration, seeking to develop scalable IoT solutions with a focus on data-driven system optimization.

Professional Experience:**Project Coordinator & HR**

Pepy Technology, Coimbatore

August 2022 – June 2024 (1 year 10 months)

- Successfully delivered multiple static, dynamic, and e-commerce websites ranging from small-budget to high-budget projects.
- Ensured all client requirements were clearly gathered, documented, and implemented as per specifications.
- Designed and developed the “Ziggy” website for pet accessories, including products for cats, dogs, and birds (food, clothing, and accessories).

Junior Data Analyst

Mahathi Infotech, Coimbatore

June 2021 – May 2022 (11 months)

- Analysed and validated business documents to ensure accuracy and consistency.
 - Trained in F&S (Finance & Services) and BRAC processes.
-

Education:

M. Tech – Embedded Systems	2024 – 2026
Amrita Vishwa Vidyapeetham, Coimbatore	CGPA: 6.93 (till 3 rd semester)
B.E – Electrical and Electronics Engineering	2017 – 2021
Sri Ramakrishna Engineering College, Coimbatore	CGPA: 7.83

Projects:**Integrated Hardware-Software Framework for Edge-Cloud Battery Monitoring System (M. Tech – 1 year)**

- Developed ESP32-based real-time battery monitoring system.
- Reduced sensor error by X% through calibration.
- Enabled remote monitoring via cloud dashboard (ThingSpeak and AWS)
- Paper currently under review at the 9th International Conference on Circuit, Power & Computing Technologies (ICCPCT), 2026.

Design and Implementation of Human Stress Detection System for Autistic Children (B.E - 6 Months)

- Developed a system to monitor vital signs and detect mental stress using electronic data analysis.
- Collected and analysed physiological signals to identify emotional stress conditions.
- Contributed to circuit design, assembling, testing, and presentation of the system.
- Project published in an international conference (ICAAISEN'21) conducted by SRM TRP Engineering College.

Professional Proficiency:

- **Programming Skills** – C, C++, Python and Java.
- **Embedded & Hardware** - ESP32, PCB Design (KiCAD and Altium), PSpice, AutoCAD.
- **Simulation & Tools** - MATLAB, LabVIEW, ANSYS, Arduino IDE and AWS IoT.

Certification Courses:

- Completed Business English Certificate (Preliminary) – Council of Europe Level A2.
- Completed Certificate in C Programming – Bharathidasan University (First Class with Distinction).
- Completed C++ Programming – Karpagam University (80%).
- Completed Python Programming – Code Infinite Software Training Institute (85%)

One-Credit Courses and Industrial Training:

- Hybrid Vehicles – Spero Bytes
- Industrial IoT – Kalycito
- Power Semiconductor: Characteristics, Driving and Applications – ABB Ltd.
- Industrial Process and Automation (PLC, SCADA) – Axis Global Automation Pvt. Ltd.
- Completed Implant Training in Signal and Telecommunication (Southern Railway).

Paper Presentations:

- MHRD – SREC Ideation Contest (2019).
- NEC Start-up Entrepreneurship Summit (2020).

Achievements:

- Selected for the Final Round – MHRD SREC Ideation Contest (2019).
- Selected for the Final Round – NEC Start-up Entrepreneurship Summit (2020).

Workshops Attended:

- Integration of Renewable Energy and Smart Grid.
- Design of Electrical Machines for Vehicle Applications.
- Design and Fabrication of PCB using Altium Toolbox.
- Research Opportunities in Power Electronics for Power Engineers.

Soft Skills:

- Team coordination
- Client communication
- Analytical problem solving
- Project management

GitHub:

- GitHub: <https://github.com/Saraan1999/battery-ml-project>

Languages:

- Tamil - Native
- English - Fluent
- Hindi – Reading & Writing; Currently improving speaking skills
